Total 10000+ people trained

“CloudThat is Deloitte India Consulting training partner to deliver our unique upskilling program we designed for our advanced analytics practitioners. CloudThat is recommended by leading OEM to be part of our program. Their approach to deliver experiential programs which involve near real time case studies in various industries with huge data sets coupled with expert SMEs supported to the practitioners is a huge success. Practitioners approached training program in an agile manner, which includes requirement gathering, brainstorming on solutioning, prepare presentations, present to the SMEs leading the learning program and deliberating the approach to arrive on solution gives them overall understanding not just technical knowledge. CloudThat successfully managed training delivery by conducting daily quizzes, provides qualitative and quantitative feedback on presentation and publishing daily leader boards gives us confidence about the progress of learning.”

Praveen Panikkassery, Associate Director, AI & Data, SMU Network leader of Deloitte India
